

Product Name :
Commercial Fish Scaling Machine

Product Code :
EQMH-CHINA-MY3014003

Description :

Commercial Fish Scaling Machine

Technical Specification :

Finish Fish Scaling Efficiently

With the application of mechanized production, fish scaling machine is more and more popular, as it is time-saving and labor-saving.

We are supplying this kind of fish processing machine used for removing fish scale that can super clean your fishes with absolutely no mess, and it is a good choice for fish suppliers, eateries, hotels, restaurants, fish shops and supermarkets.

Fish Scaling Machine Features

Can be used for various fishes of different sizes; hairbrush structure ensures clean scaling effect and no damage to fishes.

Automatically remove fish scale and discharge fishes with rate of more than 99%.

Equipped with protective devices to avoid motor overheat and leakage.

Wholly made of stainless steel, durable and sanitary.

Process fishes in a sanitary way and save labor, so it is widely used in fish processing.

Power/voltage	1.5/380	2.2/380
