

Product Name :
Automatic Cashew Grading Machine

Product Code :
EQMH-CHINA-MY3016004

Description :

Automatic Cashew Grading Machine

Technical Specification :

Cashew Grading Machine Introduction

The automatic cashew grading machine is used for grading / sorting the raw cashew nuts and classifying them into 4-5 different sizes.

With the exact grading, high output and zero-damage, this machine is a great choice for the factories specialized in cashew processing.

Cashew Grading Machine Features

Cashew grading machine is made of durable material which is an important aspect for long-term use.

The whole grading processing is of high automation, labor-saving and efficient.

Reliable performance and large capacity.

Low energy consumption and noise.

Timely cleaning after using is the essence for its maintenance.

Capacity: 800-1000kg/h

Power source: 220v/380v/0.75kw
