

Product Name :
Peanut Butter Making Machine

Product Code :
EQMH-CHINA-MY3016006

Description :

Peanut Butter Making Machine

Technical Specification :

Make peanut butter, almond butter, cashew butter, pecan butter, macadamia butter, hazelnut butter, pistachio butter, and more... quickly and easily.

The peanut butter maker is designed to make peanut butter, sesame paste, etc with various tastes.

Besides, the grinding machine can be used to grind peanut milk, protein milk, soy milk, fruit sauce, moon cake stuffing, fruit jam, etc.

This exclusive nut butter mill is popular with home and small commercial center.

Paste Grinder Working Principle

The abrasive blade driven by motor makes high speed rotation when the material are conveyed into grinding chamber by screw feeder.

The material are firstly coarsely crushed and then drop into space between movable and dynamic plate, finely ground by the strong friction force between the abrasive blade and material.

Peanut Butter Maker Features

The abrasive blade is made of super quality abrasive article with strong binding agent, very durable.

The clearance between abrasive blade is adjustable for different fitness grinding.

High yield, high efficiency and small size make the peanut butter machine extremely popular both for home and commercial use.

The peanut can be directly make into peanut butter without pre-crushing.

Adopting the latest technology of wet particle processing.

Multifunctional and compact structure.

Small in size, covering little space.
High yield and easy operation.
