

**Product Name :**  
Peanut Kernel Splitting Machine

**Product Code :**  
EQMH-CHINA-MY3016010

**Description :**

Peanut Kernel Splitting Machine

**Technical Specification :**

**Peanut Kernel Splitting Machine Overview**

A mechanical method for splitting peanut kernels has been developed, which is the peanut kernel splitting machine. And we are supplying the peanut kernel splitter that is able to complete peeling peanut kernels and processing peanut kernels into halves, and is an ideal choice for food processing with peanuts.

**Peanut Kernel Splitting Machine Features**

Dry-type processing: peanut kernels should be roasted first

Tips: we have peanut roasting machine available if you need.

One-time processing: this machine can work as peanut kernel peeling machine and peanut kernel splitting machine to finish peeling and splitting roasted kernels by one-time operation

Another outstanding function is for removing the core of peanut kernels.

High-quality finished peanut halves

High automation, high half-kernel rate; low noise, pollution-free process; low energy consumption

The machine is made of stainless steel 304, which ensures long service life and easy cleaning.
