

Product Name :
Countertop Soft Ice Cream Machine

Product Code :
EQMH-CHINA-MY3017002

Description :

Countertop Soft Ice Cream Machine

Technical Specification :

Countertop Soft Serve Ice Cream Machine Introduction

The countertop soft serve ice cream machine is ideal for providing small servings.

It adopts advanced technology and world class refrigeration fittings allowing optimum performance.

All the materials used to construct the countertop soft serve ice cream machine meet the international standards.

Countertop Soft Serve Ice Cream Machine Features

Economical in price and space

Automatic consistency controls for improved product consistency

Equipped with digital computer control systems

Energy efficient

Easy to clean and hygienic

16 grades of hardness are available for adjusting

Failure alarm for material shortage, belt slipping, refrigeration failure, high temperature.

Power	Voltage	Capacity	Cylinder
1.1Kw	220V/50Hz	12-16L/h	7.2L *1
1.6Kw	220V/50Hz	18-20L/h	5.8L *2
1.85Kw	220V/50Hz	20-25L/h	5.8L *2
