

Product Name :
Hard Ice Cream Machine

Product Code :
EQMH-CHINA-MY3017004

Description :

Hard Ice Cream Machine

Technical Specification :

Hard Ice Cream Machine Introduction

The hard ice cream machine is designed to produce superb hard ice cream consistently and efficiently. Ice cream powder, milk powder and other various kinds of powders can be used as the raw material to make different-flavor hard ice cream.

Hard ice cream machine adopts advanced technology, high efficient compressor and world-class refrigeration fittings allowing optimum performance.

Hard Ice Cream Machine Features

- Equipped with the leading completely sealed compressor.
- Stainless steel construction for high standard hygiene.
- High efficiency & fast-cooling evaporator.
- Simple to operate, easy to clean.
- Low noise and vibration.
- Several colors for your choice.

Voltage	Capacity
220V/1.85Kw	14L/h
220V/2Kw	18L/h
220V/2.2Kw	28L/h
220V/2.25Kw	30L/h
220V/2.3Kw	45L/h

220V/2.5Kw

60L/h
