

Product Name :
Floating Fish Food Machine

Product Code :
EQMH-CHINA-MY3001022

Description :

Floating Fish Food Machine

Technical Specification :

Our processing line adopt international advanced technology, the pellets size are very even. we can adjust the cutter speed and the dies to get the different diameter and the length product The Electric heating device system can control the temperature accurately High temperature and high pressure can kill the salmonellosis andbacterial infections. This line can produce high-protein fish feed. The processing line can produce both floating and sinking fish feed.

Fish feed machine floating is used to produce different kinds of pet food, floating fish feed. fish feed machine floating works with simple operation, accurate parameter control. The products can be finished in the stipulated temperature, pressure, humidity and time. Owing to the reasonable design, special materials , the staility , repairs can be guaranteed and ensured. The various shape and taste must meet the different requirements of fish feed.

Pulverizer
system
machines

Mixing system machine Mix the ingredients with water, fat, etc. Usually water need to add 15%-18%

Screw conveyer

Pre-conditioner Needed for more than 500kgs capacity

Extruder	50-3000kgs to choose
	Cook and form the ingredients to different shapes. After extruder, the water content is around 33%.
Air conveyor Oven/dryer	After dryer, the animal feed water content needs to be 8%-10%. There is options for the heating energy of the dryer, -gas, diesel, electricity, pls confirm your choice according the energy cost in your local place
Sifter Conveyor	For different size requested. (the machine use for fish food pellet)
Flavor coating systems	Coat the fat, flavor taste, and additives to the pet food
