

Product Name :
Float Fish Feed Pelleting Machine

Product Code :
EQMH-CHINA-MY3001024

Description :

Float Fish Feed Pelleting Machine

Technical Specification :

This Float fish feed pelleting machine is widely used for producing floating feed pellets of all kinds of aquatic animal.

Advanced technology and humanized design ensures easy operation and reliable performance.

High efficiency, low power consumption

This Float fish feed pelleting machine is widely used for producing floating feed pellets of all kinds of aquatic animal.

Advanced technology and humanized design ensures easy operation and reliable performance.

High efficiency, low power consumption

Formula: Free to buyers.

Float fish feed pelleting machine Advantage: Professional engineer team, steady quality, customization service.
