

**Product Name :**  
Mini Fish Feed Making Machine

**Product Code :**  
EQMH-CHINA-MY3001026

**Description :**

Mini Fish Feed Making Machine

**Technical Specification :**

Provide different product formulations.

Warranty for one year, long-term supply of spare parts at reduced prices.

Engineers on site installation and commissioning, training of technicians.

Provide a professional choice of equipment, technological process, consultations on the design of the plant.

Extruder for fish feed production process is deliberately made for special feed, which needs high in-shape rate and good-looking appearance. fish feed production process is mainly used for sinking/floating/slow sinking fish feed.

Effectively protect the aquaculture water body from pollution to improve the quality of life.

Raw materials: adopts corn flour, fish meal as raw materials

Products: fish feed process line can be used to produce fish pellets, the pellets size can be from 0.6mm to 9.0mm by adjusting the moulds from extruder; meanwhile it can produce dog food, cat food and so on.

how to produce the floating fish food .we should control the pressure(30-40Mpa)/tempreture(120-160degree)/water in the barrel.

Installed power	76kw	95kw	140kw	178kw	280kw
Production Capacity	120-150kg/h	200-260kg/h	300-400kg/h	400-600kg/h	1.0-2.0 T/H
