

Product Name :
Floating Fish Feed Machine Manufacturer

Product Code :
EQMH-CHINA-MY3001030

Description :

Floating Fish Feed Machine Manufacturer

Technical Specification :

Floating sinking aquatic Fish food feed making machinery line processing extrusion equipment plant The fish food is close to the human beings food in the fine level, the health index and the nutritional ingredient, some of them request more highly than human beings.

Floating sinking aquatic Fish food feed making machinery line processing extrusion equipment plant The fish food is close to the human beings food in the fine level, the health index and the nutritional ingredient, some of them request more highly than human beings .

The fish food is close to the human beings food in the fine level, the health index and the nutritional ingredient, some of them request more highly than human beings The nutrition of inflated food is absorbed more easily.

The fish species is growing up which has the different needs for the food according to the grown.researched and developed many kinds of Animals food production equipment according to the market demand and our own experience in researching and developing the extrusion food machines.

INSTALLED POWER	REAL POWER	OUTPUT(KG/H)
16.5KW	15KW	100-150
23.5KW	22KW	200-300
66KW	55KW	500-600
80KW	50KW	100-150
110KW	80KW	200-250
