

Product Name :
Animal Feed Pellet Machine

Product Code :
EQMH-CHINA-MY3001031

Description :

Animal Feed Pellet Machine

Technical Specification :

Flat die granule machine, the machine learn the essence of the pellet machine at home and abroad, the heart parts "template" and "pressure" with high alloy wear-resistant materials refined but become, long service life. Transmission part adopts auto differential, cardan drive.

Low noise, low energy consumption, high efficiency, easy operation, my unit is developed to finalize the design patent products of domestic initiation.

This product is suitable for medium and small farms, feed mills, organic fertilizer factory, chemical industry, etc., small investment, quick effect, no risk is the most ideal grain processing equipment.

Capacity(kg/h)	60-100	200-300	250-500	700-1000	1000-1500
Main Power(kw)	3	11	18.5	22	37
Feeder Power(kw) -		-	-	1.5	1.5
Flat Dia(mm)	120	200	250	350	400
Roller Qty(pc)	2	2	2	2	2
Feed Pellet Dia	?3,?3.5,?4,?4.5,?5,?6,?8mm				
Pellet Shaping Rate	? 95%				
Pellet Mill Noise	?86dB(A)				
Application	Use to produce feed pellet for fish/poultry/chicken/rabbit/sheep/cattle/cow small farm.
