

Product Name :
Aqua Feed Making Machine

Product Code :
EQMH-CHINA-MY3001039

Description :

Aqua Feed Making Machine

Technical Specification :

The feeder, cutter and main shaft are all controlled with inverter to ensure smooth running.
Stainless steel conditioner with jacket design makes the material optimally conditioned.
Equipped with barrel heating/cooling system which makes it easy to control the quality of products.
Wear part are made of special anti-wear alloy with long service life.
It can process floating, sinking and slow sinking aqua feed in small diameter with a high in-shape rate.
