

BULLDOZER

Construction 100HP Crawler Bulldozers

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3172416	Bulldozer	China, exported worldwide

Description

At 100 HP the crawler dozer becomes a general contracting machine rather than a site tidy-up machine. It will hold a grade across road formation work, push fill at useful volume and handle light ripping, while still being transportable on a standard low-bed without a permit in most markets. Build is to order. The blade, undercarriage, ripper and cab are configured to the ground conditions and the contract, and we manufacture against the buyer's own specification rather than from a fixed catalogue build. Where a tender specifies its own annexure, we price and build against that.

Technical specification

Engine power: 100 HP Undercarriage: Crawler track Build: Manufactured to the specification supplied with the enquiry or tender
