

BULLDOZER

Construction 120HP Crawler Bulldozers

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3172417	Bulldozer	China, exported worldwide

Description

The 120 HP crawler dozer covers the middle of the range, where most road, water and general civil contracts sit. It carries enough blade to move bulk fill productively but remains economical to run and straightforward to move between sites. Specification is settled before manufacture rather than chosen from stock. Blade geometry, ripper, track width, cab and emission compliance are all built to what the buyer states, and a tender with its own technical schedule is quoted against that schedule in full.

Technical specification

Engine power: 120 HP Undercarriage: Crawler track Build: Manufactured to the specification supplied with the enquiry or tender
