

**BULLDOZER**

# Construction 165HP Hydraulic Driven Crawler Swamp Bulldozer

| PRODUCT CODE         | CATEGORY  | ORIGIN                    |
|----------------------|-----------|---------------------------|
| EQMH-CHINA-MY3172430 | Bulldozer | China, exported worldwide |

## Description

This machine combines two features that are usually specified for different reasons. The swamp undercarriage spreads weight across wide tracks so the dozer can work ground that will not carry a standard machine, and hydraulic drive gives independent track control for turning tightly and holding a blade line at low speed. Together they suit reclamation, canal and wetland work where the machine has to be both light-footed and accurate. At 165 HP it has the power for continuous bulk pushing rather than light forming alone. We manufacture to the buyer's specification, including against a tender's own technical annexure, rather than supplying a fixed build.

## Technical specification

Engine power: 165 HP Drive type: Hydraulic drive Undercarriage: Crawler track Configuration: Swamp (wide track, low ground pressure) Build: Manufactured to the specification supplied with the enquiry or tender

## Request a quotation

Send your capacity, voltage and destination port and we will reply with drawings, a price and a lead time within one working day.
