

BULLDOZER

Construction 180HP Swamp Bulldozers

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3172436	Bulldozer	China, exported worldwide

Description

At 180 HP the swamp dozer moves into heavy bulk work on ground that will not carry a conventional machine. The wide-track undercarriage keeps ground pressure low across peat, paddy, tailings and reclaimed land, while the power class allows sustained pushing rather than intermittent light forming. The heavier the machine, the more the track width has to be matched properly to the bearing capacity of the site. Specifying tracks wider than the ground actually needs costs manoeuvrability and undercarriage life for no gain. Build is to the buyer's own requirement, quoted and manufactured against the tender schedule where one is issued.

Technical specification

Engine power: 180 HP Configuration: Swamp (wide track, low ground pressure) Build: Manufactured to the specification supplied with the enquiry or tender
