

Product Name :
Fish Feed Pet Food Extruder Machine

Product Code :
EQMH-CHINA-MY3001001

Description :

Fish Feed Pet Food Extruder Machine

Technical Specification :

Multi-functional for both aquatic and pet food production
Adjustable pellet size (0.8-10mm)
Automatic temperature and speed control
Energy-efficient operation
Food-grade stainless steel construction
Ideal for feed mills and pet food manufacturers, it ensures hygienic, cost-effective production with 98% pellet floatation rate.

Fish Feed & Pet Food Extruder Machine

This advanced extruder machine produces high-quality floating/sinking feed pellets for fish, dogs, cats, and other pets.

Featuring a dual-purpose design, it processes various raw materials into nutritionally balanced feed through high-temperature extrusion.

- Pre-conditioning System - Pre-mixes and moistens raw materials.
- Twin-Screw Extruder - Cooks and shapes feed under high pressure.
- Variable Die System - Produces pellets from 0.8mm to 10mm.
- Automatic Cutter - Precisely controls pellet length.
- Drying/Cooling Unit - Reduces moisture for longer shelf life.
- PLC Control Panel - Monitors temperature, speed and pressure.

Installed Power (KW)	Real Consumption (KW)	Output (kg/h)
70	50	120-150
110	80	250-300
200	160	500-600
220	155	1000-1500
300	210	2000-2500
