

BULLDOZER

Construction 80HP Crawler Bulldozers

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3172453	Bulldozer	China, exported worldwide

Description

An 80 HP crawler dozer sits at the light end of the tracked range, where the work is site levelling, backfilling trenches, forming estate and farm tracks, and spreading fill on plots too confined for a larger machine to turn in. At this power class the limit is usually access rather than production. We do not hold this machine to one fixed build. Blade type and width, track shoe width, ripper arrangement, cab specification and emission standard are all set against what the buyer asks for, and we manufacture to that schedule. Where a tender carries its own technical annexure, we quote and build to that annexure rather than offering a nearest match.

Technical specification

Engine power: 80 HP Undercarriage: Crawler track Build: Manufactured to the specification supplied with the enquiry or tender
