

BULLDOZER

Construction 80HP Mechanical Driven Crawler Bulldozer

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3172454	Bulldozer	China, exported worldwide

Description

This is the 80 HP crawler dozer in mechanical drive. Mechanical transmission suits buyers who value a drivetrain that can be diagnosed and repaired in the field over one that gives finer control at the blade. On remote sites, and where the machine will be maintained by the owner's own fitters rather than a dealer network, that is usually the deciding factor. Everything above the drivetrain is specified at order. Tell us the blade and ripper configuration you need, the track width the ground demands and the cab standard the contract calls for, and the machine is built to it. Tender documents with a defined technical schedule are quoted line by line against that schedule.

Technical specification

Engine power: 80 HP Drive type: Mechanical drive Undercarriage: Crawler track Build: Manufactured to the specification supplied with the enquiry or tender
