

WHEEL LOADER

Construction Hot Sale 4 Ton Wheel Loaders

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3172469	Wheel Loader	China, exported worldwide

Description

A 4 tonne wheel loader supplied in the configuration the buyer specifies. This is the most widely used size in the range because it covers batching plant feed, truck loading, stockpile work and general site handling without being oversized for any of them. The build is settled before manufacture: bucket, tyres, coupler, cab and compliance are all matched to the work and the destination. Send the specification or the tender schedule and we manufacture to it rather than offering the closest standard machine.

Technical specification

Rated capacity: 4 tonne Undercarriage: Wheeled Build: Manufactured to the specification supplied with the enquiry or tender

Request a quotation

Send your capacity, voltage and destination port and we will reply with drawings, a price and a lead time within one working day.
