

ROAD ROLLER

Construction Small Tandem Vibratory Rollers

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3172501	Road Roller	China, exported worldwide

Description

This entry covers small tandem vibratory rollers supplied to the weight the work requires. In the light classes the choice is driven by access rather than by compaction: the machine has to reach the work, fit the width and be movable on a trailer. Once the size is fixed, spray coverage and drum configuration follow from the surface being compacted. We build to the specification stated in the enquiry.

Technical specification

Configuration: Tandem drum; Vibratory Build: Manufactured to the specification supplied with the enquiry or tender

Request a quotation

Send your capacity, voltage and destination port and we will reply with drawings, a price and a lead time within one working day.
