

ROAD ROLLER

Construction Tandem Drum Full Hydraulic Driven 1.8 Ton Vibratory Road Roller

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3172502	Road Roller	China, exported worldwide

Description

At 1.8 tonnes with full hydraulic drive, this is the smallest tandem roller in the range: a walk-behind or ride-on machine for footpaths, driveways, trench reinstatement and work inside buildings or yards where nothing larger will fit. Full hydrostatic drive gives the fine speed control needed for small areas, where a machine that starts abruptly will scuff a fresh surface. We build to the requirement supplied with the enquiry.

Technical specification

Operating weight: 1.8 tonne Drive type: Hydraulic drive Configuration: Tandem drum; Vibratory Build:
Manufactured to the specification supplied with the enquiry or tender
