

CRANE

Construction 12 Ton Truck Cranes

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3172522	Crane	China, exported worldwide

Description

A 12 tonne truck crane is the most widely used size in utility, telecom and general maintenance work. It carries enough capacity for transformer, pole and plant handling while remaining a normal road vehicle between jobs. The specification that decides suitability is the load chart at the radius you actually work, not the headline tonnage. Send the heaviest lift and the distance from the crane centre and we build to that.

Technical specification

Rated lifting capacity: 12 tonne Carrier: Truck mounted Build: Manufactured to the specification supplied with the enquiry or tender

Request a quotation

Send your capacity, voltage and destination port and we will reply with drawings, a price and a lead time within one working day.
