

CRANE

Construction 25 Ton Truck Cranes

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3172526	Crane	China, exported worldwide

Description

A 25 tonne truck crane is the entry point into construction lifting rather than maintenance lifting. It handles steel erection, precast panels, plant installation and general site lifting, and still travels between sites on its own wheels. At this capacity the counterweight arrangement starts to matter, because what can be carried on the road and what is needed to lift at radius are not the same. Build is to the schedule supplied with the enquiry.

Technical specification

Rated lifting capacity: 25 tonne Carrier: Truck mounted Build: Manufactured to the specification supplied with the enquiry or tender

Request a quotation

Send your capacity, voltage and destination port and we will reply with drawings, a price and a lead time within one working day.
