

CRANE

Construction 55 Ton Truck Cranes

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3172531	Crane	China, exported worldwide

Description

A 55 tonne truck crane handles heavy structural steel, bridge beams, tower sections and plant that a 36 tonne machine cannot reach at radius. It remains road mobile, though counterweight and sometimes boom sections travel separately. Transport is therefore part of the specification rather than an afterthought: axle loads, permit limits and the number of support loads all follow from the configuration chosen.

Technical specification

Rated lifting capacity: 55 tonne Carrier: Truck mounted Build: Manufactured to the specification supplied with the enquiry or tender

Request a quotation

Send your capacity, voltage and destination port and we will reply with drawings, a price and a lead time within one working day.
