

CRANE

Construction 8 Ton Mobile Cranes

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3172534	Crane	China, exported worldwide

Description

An 8 tonne mobile crane is self-propelled on its own carrier rather than mounted on a truck chassis, which makes it more manoeuvrable on site and less suited to long road journeys. It suits yards, plants and confined sites where the crane stays put for weeks at a time. Carrier type, steering modes and tyre specification are set against the ground it will work on, and the machine is built to that.

Technical specification

Rated lifting capacity: 8 tonne Carrier: Mobile, self-propelled Build: Manufactured to the specification supplied with the enquiry or tender

Request a quotation

Send your capacity, voltage and destination port and we will reply with drawings, a price and a lead time within one working day.
