

CRANE

Construction 800 Ton Crawler Crane

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3172538	Crane	China, exported worldwide

Description

An 800 tonne crawler crane is a heavy-lift machine for power plant, refinery, bridge and wind installation work. Cranes at this size are engineered into a project rather than hired into it: the lift studies, ground preparation and assembly sequence are usually settled before the crane is ordered. Superlift, boom configuration and counterweight arrangement are all specified against those studies and built to them.

Technical specification

Rated lifting capacity: 800 tonne Undercarriage: Crawler track Build: Manufactured to the specification supplied with the enquiry or tender

Request a quotation

Send your capacity, voltage and destination port and we will reply with drawings, a price and a lead time within one working day.
