

CRANE

Construction 85 Ton Crawler Crane

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3172539	Crane	China, exported worldwide

Description

An 85 tonne crawler crane covers heavy foundation and erection work. Crawler cranes are normally chosen for duty cycle rather than peak capacity: where a crane will make hundreds of repetitive lifts, the ability to travel between them without rigging down determines the programme. Configuration is specified at order and the machine is manufactured to the tender schedule where one is issued.

Technical specification

Rated lifting capacity: 85 tonne Undercarriage: Crawler track Build: Manufactured to the specification supplied with the enquiry or tender

Request a quotation

Send your capacity, voltage and destination port and we will reply with drawings, a price and a lead time within one working day.
