

CRANE

Construction Ton Crawler Crane

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3172540	Crane	China, exported worldwide

Description

A crawler crane supplied in the capacity class the project requires. Tracked cranes are specified where the work involves repetitive lifting along a line, travel under load, or ground too soft for outrigger loads, rather than simply where a large capacity is needed. This product name currently reads "Ton" with no figure, so the capacity class is not stated in the catalogue and should be corrected. Tell us the lift schedule and we specify the class against it.

Technical specification

Undercarriage: Crawler track Build: Manufactured to the specification supplied with the enquiry or tender

Request a quotation

Send your capacity, voltage and destination port and we will reply with drawings, a price and a lead time within one working day.
