

Product Name :
Fish Food Extruder Plant

Product Code :
EQMH-CHINA-MY3001002

Description :

Fish Food Extruder Plant

Technical Specification :

- High-Capacity Production – 1-10 tons/hour output, scalable for small to large operations
- Precision Extrusion – Produces 1.0-12mm pellets with adjustable floatability (5 sec to 24 hrs)
- Nutrient Retention – Low-temperature processing preserves proteins, vitamins, and oils
- Multi-Ingredient Flexibility – Handles fishmeal, soybean, grains, algae, and insect proteins
- Energy-Efficient – 20-30% lower power consumption than conventional systems
- Smart Automation – PLC-controlled with touchscreen interface for easy operation

Input Voltage	380v/50hz	380v/50hz	380v/50hz	380v/50hz	380v/50hz
Installed power	70kw	90kw	120kw	96kw	180kw
Power consumption	40kw	50kw	100kw	80kw	120kw
capacity	120-150kg/h	200-250kg/h	400-500kg/h	800-1000kg/h	1500-2000kg/h
