

Product Name :
Floating Fish Feed Extruder Line

Product Code :
EQMH-CHINA-MY3001058

Description :

Floating Fish Feed Extruder Line

Technical Specification :

Extruder for fish feed production process is deliberately made for special feed, which needs high in-shape rate and good-looking appearance.

Fish feed production process is mainly used for sinking/floating/slow sinking fish feed.

Effectively protect the aquaculture water body from pollution to improve the quality of life.

Floating Food Extruder Fish Pellet Making Machine Processing Line take corn flour, wheat flour, wheat bran, fish powder, bone powder, meat powder, etc as raw materials. From mixing to flavoring, it can be finished automatically at once.

Fish feed produced by our machines is with different shapes and tastes.

Power installed	74kw	105kw	130kw	140kw	165kw
Power consumption	52kw	75kw	110kw	125kw	130kw
Production capacity	100-150kg/h	200-250kg/h	300-500kg/h	800-100kg/h	1000-1200kg/h
