

MUNICIPAL AND SPECIAL VEHICLE

Construction 14m Aerial Working Vehicles

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3172572	Municipal and Special Vehicle	China, exported worldwide

Description

A 14 metre aerial working vehicle covers street lighting, sign maintenance and low-rise building work. The specification decisions are outreach and platform load, which together determine what the operator can carry to the work rather than how high they can stand. Where the vehicle will work near live conductors, an insulated boom is a safety requirement rather than an option, and it should be stated in the enquiry.

Technical specification

Working height: 14 m Build: Manufactured to the specification supplied with the enquiry or tender
