

MUNICIPAL AND SPECIAL VEHICLE

Construction 5000L Water Tank Trucks

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3172583	Municipal and Special Vehicle	China, exported worldwide

Description

A 5,000 litre water tank truck is a general municipal and site vehicle: dust suppression, temporary supply, construction water and standby distribution. The specification that matters most is what the tank is lined with and what the water is for. Potable supply requires a food-grade lining and a separate fill and discharge arrangement from a truck used for dust suppression on a construction site.

Technical specification

Tank capacity: 5,000 litres Build: Manufactured to the specification supplied with the enquiry or tender
