

MUNICIPAL AND SPECIAL VEHICLE

Construction 8000L Water Tank Spraying Trucks

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3172589	Municipal and Special Vehicle	China, exported worldwide

Description

An 8,000 litre water tank spraying truck carries a spray bar as well as a tank, which makes it a road maintenance and dust suppression vehicle rather than a simple carrier. Spray bar width, nozzle spacing and pump pressure determine the coverage rate, and those follow from the road width and the application rate the work requires. Bar, pump and tank are matched to one another and built to the coverage required.

Technical specification

Tank capacity: 8,000 litres Build: Manufactured to the specification supplied with the enquiry or tender

Request a quotation

Send your capacity, voltage and destination port and we will reply with drawings, a price and a lead time within one working day.
