

Product Name :
Dog Feed Machine

Product Code :
EQMH-CHINA-MY3002022

Description :

Dog Feed Machine

Technical Specification :

Dog feed machine is plant or animal material intended for consumption by dogs or other canines. In extruder, the ingredients are cooked under intense heat and pressure as it moves toward the open end of the extruder where ingredients pass through a shaping die and knife.

High automatic degree , all machines just need 2 worker for operation.

Wide range raw material . Not only cereal flours, but also fresh meat , bone are ok.

Various shape of pet food could be processed just by changing the mold.

Intelligent electric heating device is adopted which can improve the feed expansion rate.

High temperature and high pressure cooking process can kill the salmonella and bacterial infections and also makes the fish feed easily to digest.

The wet type machine needs a boiler to make steam which can conduct steam to conditioner and ripen the raw material in advance.

Gearbox with automatic lubrication function, extending gear life.

World famous brand Siemens main motor, guaranteeing good quality

Barrel with water-cooled circulation, raw materials not only for corn/rice, also for wheat flour/starch with high viscosity.

Different moisture-extrusion temperature ratio, whole-expanded and half expanded as different type of products.

Cutting knife fixed in the die head seat, rotary cutting by V-belt drive.

Installed Power (kw)	Power Consumption (kw)	Capacity (kg/h)
-------------------------	---------------------------	--------------------

74	52	120-180
95	70	200-300
110	82	250-400
139	104	400-800
132	75	800-1200
165	90	1500-2000
469	380	2000-2500
712	570	3000-3500
