

**Product Name :**  
Aquarium Feed Machine

**Product Code :**  
EQMH-CHINA-MY3001005

**Description :**

Aquarium Feed Machine

**Technical Specification :**

Micro-Pellet Precision – Produces 1.0-3mm pellets for nano fish to large species

High Buoyancy Control – Adjustable floating time (5 sec to 30 min)

Nutrient Retention – Low-temperature extrusion preserves proteins/vitamins

Multi-Formulation – Processes fishmeal, spirulina, krill, plant proteins

Hygienic Design – 316 stainless steel contact parts, CIP cleaning system

Smart Automation – PLC control with recipe memory function

Micro-Ingredient Handling System

Precision micro-feeders ( $\pm 1\%$  accuracy)

Vitamin/mineral pre-mix station

Superfine Grinding Unit

Turbo mill (80-300 mesh adjustable)

Cryogenic grinding option for heat-sensitive ingredients

Extrusion & Shaping

Micro-twin-screw extruder (0.2-5mm dies)

Dual-texture capability (crunchy exterior/soft interior)

Specialized Drying

Fluidized bed dryer (30-60°C gentle drying)

---

UV sterilization tunnel

Nutrient Coating

Vacuum flavor infusion system

Probiotic spray coating attachment

Quality Control

Automated sieve classifier

X-ray inspection for foreign objects.

Parameter	Fish feed Processing Line	Pet Food Machine	Pet Food Processing plant	pet feed machine
Power	95KW	120KW	140KW	180kw
Output	100-160kg/h	200-260kg/h	500-600kg/h	1-2t/h
