

ICE CREAM MACHINE

Ice Cream Machine Stainless Steel

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3017008	Ice Cream Machine	China, exported worldwide

Description

A stainless steel ice cream machine built with food-grade stainless steel contact surfaces and body panels, specified where hygiene standards, cleaning regime or inspection requirements call for it. Stainless steel is the material choice that affects daily operation rather than the ice cream itself. It takes repeated washing and sanitiser without corroding, it does not hold residue in the way a worn plastic surface does, and it stands up to a commercial cleaning routine over years. For operators subject to inspection, it is usually the straightforward answer. Available as a soft serve or batch freezer depending on the product you sell. Contact EMC Machines Manufactures with your product type and output and we will specify the unit.

Technical specification

Imported famous compressor or ,Accurate refrigeration.
Full output and quick for ice cream production
Digital temperature controller ensure better temperature control and saving energy
Fully spread air flow,Better refrigeration effect no pollution
Low noise less than 50dB
Long service time

Request a quotation

Send your capacity, voltage and destination port and we will reply with drawings, a price and a lead time within one working day.
