Tissue Paper Folding Machine

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3184001	Hygiene Machines	China, exported worldwide

Description

Tissue Paper Folding Machine

Technical specification

Tissue paper folding machine is used for embossing, folding, electronic counting, and cutting of raw material tray paper into napkin paper products. Due to the high degree of automation, good processing quality, and brilliant production efficiency, it is a piece of ideal production equipment for paper product factories and urban and rural families to build factories and become rich with a small investment and quick results. In addition, various clear and beautiful patterns can be embossed according to customer needs. the tissue folding machine produced by Soontrue is popular for accurate counting, precise cutting, environmental protection, and energy-saving.
