

HYGIENE MACHINES

Automatic Facial Tissue Paper Making Machine

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3184005	Hygiene Machines	China, exported worldwide

Description

Box drawing type facial tissue machine use tissue jumbo roll to Process folded into "V" type paper processing equipment. The machine adopts the vacuum adsorption principle and auxiliary manipulator folding.

Technical specification

Function and Features:

Automatic counting points a whole row output

Helical blade shear, vacuum adsorption folding

Stepless speed regulation unwind and can adapt to rewind high-low tension paper material

Adopt PLC computer programming control, pneumatic paper and easy to operate;

Frequency conversion control, saves energy.

The product width is adjustable, to meet different market requirement.

Supporting paper rolling pattern device, pattern obvious, flexible to market demand. (The embossing pattern is chosen by the customers).

It can make "V" type single layer towel and two layers glue lamination .(Optional)

Request a quotation

Send your capacity, voltage and destination port and we will reply with drawings, a price and a lead time within one working day.
