

Product Name :
Dog Food Extruder Machine

Product Code :
EQMH-CHINA-MY3002039

Description :

Dog Food Extruder Machine

Technical Specification :

Dog food extruder machine is mainly made up with raw materials treatment system ,extrusion system, drying system, flavoring system and controlling system, It has high stability and automatic performance, which offers the possibility to control the expansion of the extruder through various means to control the texture of the final product.

Fully automatic control system for heating and circulated cooling accurately
Direct transmission of motor and distribution box reduces energy loss.
Equip with water injecting device on barrel to meet require of various raw material and quality.
Modular combination of screws at will to meet require of different raw material.
Suspension type rotary cutter with bearing adjusting device to ensure quick,safe and accurate

Name	Dry Dog Food Pellet Making Machine
Material	Stainless steel and carbon steel
Whole line Size:	about 20.0*4.0*4.0m (Free worksho design drawing)
working Power	380v 50HZ three phase (Customized)
Packing way	woodcase or plastic film for Best Price Floating fish feed making feed pellet machine price fish feed machine
Payment	T/T or L/C at sight
Shipment date	in about 25-35 days
Advantage	Our processing line adopt international advanced

technology, the pellets size are very even.
we can adjust the cutter speed and the dies to get the
different diameter and the length product
The Electric heating device system can control the
temperature accurately
High temperature and high pressure can kill the
salmonellosis and bacterial infections.
This line can produce high-protein fish feed.
The processing line can produce both floating and
sinking fish feed.
This line only need three workers
