

**Product Name :**  
Dog Food Production Line

**Product Code :**  
EQMH-CHINA-MY3002043

**Description :**

Dog Food Production Line

**Technical Specification :**

Animal feed production line is mainly made up with raw materials treatment system ,extrusion system, drying system, flavoring system and controlling system, It has high stability and automatic performance, whice offers the possibility to control the expansion of the extrudate through various means to control the texture of the final product.

Dry pellet pet feed production line core technology is corotating twin-screw extrusion.  
Twin-screw extruder is the core of this line, enabling the continuous production of expanded pet food.

Installed Power	76kw	95kw	178kw
Power Consumption	54kw	66kw	125kw
Capacity	140-160kg/h	240-260kg/h	500kg/h
