

**Product Name :**  
Pet Food Processing Machines

**Product Code :**  
EQMH-CHINA-MY3002052

**Description :**

Pet Food Processing Machines

**Technical Specification :**

Dry Pet Food Processing Machines is used to produce different kinds of pet food, floating fish feed. Pet food extruder machine works with simple operation, accurate parameter control. The products can be finished in the stipulated temperature, pressure, humidity and time. Owing to the reasonable design, special materials, the stability, repairs can be guaranteed and ensured. The various shape and taste must meet the different requirements of pet food.

It has perfect technology, compact structure, original design and stable performance. The motor of our extruder machine is Siemens motor, Inverter is Schneider, Electric parts is Schneider, Second generation gear case and gear. The raw material of our machinery all food grade stainless steel. Convenient operation, low energy. Safe and reliable operation.

Installed power	76kw	95kw	178kw	280kw
Production Capacity	120-150kg/h	200-260kg/h	400-600kg/h	1000-1500kg/h
