

**Product Name :**  
Cat Food Equipment

**Product Code :**  
EQMH-CHINA-MY3002053

**Description :**

Cat Food Equipment

**Technical Specification :**

The molding process is applicable to all kinds of pet dog feed.

The product particles forming uniform stability.

It can achieve precise control of water, steam and feed collocation PLC system.

The wearing parts are made of abrasion resistant alloy steel by special processing technology,

The feeding device adopts a variable pitch screw, no knot arch, homogeneity.

The feeder is driven by the inverter, easy to adjust the volume of feed.

Please use the imported NSK bearings with oil lubrication system and oil cooling system,

Power	Capacity	Feeding power	Cutting power
11KW	60-80KG/H	0.4KW	0.4KW
15KW	120-150KG/H	0.4KW	0.4KW
18.5KW	180-250KG/H	0.4KW	0.4KW
22KW	300-350KG/H	0.4KW	0.6KW
37KW	400-500KG/H	1.1KW	1.5KW
55KW	500-600KG/H	1.1KW	1.5KW

High quality dry dog cat pet food machine Feature:

Make the material mature, which is conducive to animal digestion;

Soften the material, the mold wear is small, and the life of the mold is improved;

The material is fully matured at high temperature, and reasonable water is added to facilitate extrusion and increase equipment productivity;

The material is sterilized by high temperature, and the animal does not get sick.

---

Variable frequency feeder, uniform feeding
