

Product Name :
Fish Food Pellet Making Machine

Product Code :
EQMH-CHINA-MY3001009

Description :

Fish Food Pellet Making Machine

Technical Specification :

- Versatile – Produces floating, slow-sinking & sinking pellets
- High Efficiency – Output: 100kg-5T/hour (customizable)
- Nutrient Preservation – Maintains protein & vitamin content
- Easy Operation – Adjustable pellet size (0.5-10mm)
- Durable – Made from corrosion-resistant materials
- Applications: Suitable for tilapia, catfish, shrimp, and other aquatic species. Ideal for feed mills and aquaculture farms.

Fish Feed Pellet Making Machine – Introduction

The Fish Feed Pellet Making Machine is an essential equipment for producing high-quality floating or sinking fish feed pellets. It processes raw materials like fishmeal, soybean meal, grains, and additives into uniform, nutrient-rich pellets through grinding, mixing, extrusion, and drying.

Key Technical Specifications:

- Production capacity: 100kg-5T/hour (customizable)
- Pellet diameter range: 0.5-10mm adjustable
- Power configuration: 15-160kW (depending on model)
- Moisture content: ?10% in final product
- Floating rate: ?95% (for floating pellets)

Installed	60 kW	90 kW	120 kW	96 kW	180 kW
