

**Product Name :**  
Puffed Snack Food Production Line

**Product Code :**  
EQMH-CHINA-MY3003014

**Description :**

Puffed Snack Food Production Line

**Technical Specification :**

This automated production line efficiently manufactures puffed snacks (e.g., cheese balls, extruded curls) through mixing, extrusion, baking/frying, seasoning, and packaging. Designed for high output (up to 1,000 kg/h) with food-grade stainless steel construction, it ensures hygiene, energy efficiency, and customizable snack shapes/flavors.

Ideal for large-scale, cost-effective production.

Mixing System – Uniform blending of raw materials.

Twin-Screw Extruder – Expands and shapes dough into puffed snacks

Multi-Zone Oven/Fryer – Precise cooking control (baked or fried options)

Oil Sprayer/Seasoning Drum – Even flavor/coating application

Cooling Conveyor – Stabilizes product temperature

Multihead Weigher & Packaging Machine – Automated weighing and sealing

PLC Control Panel – User-friendly operation and monitoring.
