

**Product Name :**  
Kurkure Extruder

**Product Code :**  
EQMH-CHINA-MY3003020

**Description :**

Kurkure Extruder

**Technical Specification :**

High work efficiency, automation degree, materials usage, application range.  
Low land occupation, power consumption, labor cost, waste rate.  
Various configurations and capacity choices.  
Production factors can be quantified and controlled.  
World-class food grade fittings.  
All machines and fittings can be custom-made. ODM or OEM is available.  
Professional pre-sale, sale and after-sale service.

Raw materials: adopts corn grits as raw materials meanwhile mixing with water and oil

Products: This line can be used to produce cheetos, kurkure, and nik naks

Kurkure extruder Capacity: 100--150kg/h

Kurkure food extruder Flow chart:Mixing system---Extrusion system----Baking system (Frying System)

---Flavoring system---Packing system

Voltage in China: Three phases: 380V/50Hz, Single phase: 220V/50Hz, we can make it according to customers'

Local voltage according to different countries

Machines Materials: All the machines are made by stainless steel.
