

CONCRETE BLOCK MAKING PRODUCTION LINE

Simple Block Making Machine

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3294004	Concrete Block Making Production Line	China, exported worldwide

Description

Simple Block Making Machine

Technical specification

Using vibration, oil top pressure combination, the finished product speed is fast and the pressure is high. Automatically feed the plate by hydraulic pressure, and the billet is discharged from the chain. The hydraulic station of the automatic pad machine is automatic, and the travel switch is an induction switch. Automatic feeding, using 360-degree feeding without dead ends, one-time fabric success, fast speed and good compactness. The mold of the cement block machine adopts special high-grade mold steel, which is wear-resistant and anti-extrusion. Strong excitation force and good product compactness. The computer PLC central control system realizes the automation of self-mixing, feeding and pressing. All use famous-brand national standard copper wire motors. The body adopts super strong steel and special welding technology for durability.
