Description

Kerb Stone Making Machine

Technical specification

The kerb stone machine is a kind of professionally pressed curb stones, tooth bricks, tree fence bricks and other elongated bricks; curb stones refer to the boundary stones that are casted with stone or concrete and used on the edge of the road. The curb stone is also called road calculus or curb stone or curb stone. Curbstones are the boundaries that distinguish the roadway, sidewalks, green spaces, isolation belts and other parts of the road on the road surface, and play a role in ensuring the safety of pedestrians and vehicles and ensuring the neatness of the road edge.
