

CONCRETE BLOCK MAKING PRODUCTION LINE

Precast U Drain Mould

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3294014	Concrete Block Making Production Line	China, exported worldwide

Description

Precast U Drain Mould

Technical specification

The use of drainage ditch is constantly increasing. It is not only used on ordinary roads, highways, railways, agricultural production, and rural reconstruction. Different forms of drainage ditch will be used in rural reconstruction. Therefore, there are many types of Precast U Drain Mould designs. Commonly used are round U, parallel U, and various special-shaped designs and productions according to drawings.

Main features:

The inside of the mold is mainly thickened ribs

Reasonable structure and high production efficiency

Easy to automate

Customized according to customer's size requirements, can be recycled

U-shaped channel steel molds have the advantages of high density, high brightness, strong toughness, not easy to deform, and extremely low damage rate.

Request a quotation

Send your capacity, voltage and destination port and we will reply with drawings, a price and a lead time within one working day.
