

CONCRETE BLOCK MAKING PRODUCTION LINE

Automatic Stacker Machine

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3294032	Concrete Block Making Production Line	China, exported worldwide

Description

Automatic Stacker Machine

Technical specification

Automatic stacker adopts mechanical design. Its operation and maintenance is simple, automatic circuit control without operation. Configuration make the entire block production line can reduce at least 1-2 employees, reduce labor force and increase work efficiency. At the same time also reduce the damage of finished block and improve the yield. Independent automatic circuit control, is easy to support in different manufacturers and models of all kinds of molding machines.

Working voltage 380V

lift motor power: 1.5KW

Advance and retreat motor power: 1.5KW

The sensor voltage: 24V

Request a quotation

Send your capacity, voltage and destination port and we will reply with drawings, a price and a lead time within one working day.
